PROFESSIONAL SUMMARY

MCA graduate and Software Developer Intern with hands-on experience contributing to web and mobile application development, backend REST API integration, database management, debugging, and testing. Technical skills include Core Java, Spring Boot, Python, React.js, SQL, and MySQL. Built projects including a Java learning platform, an algorithmic trading system, and a Java Swing VPN client simulator. Seeking a Junior Java Developer or Associate Software Engineer opportunity.

TECHNICAL SKILLS

Technical Skills

- **Programming Languages:** Java, SQL, Python, JavaScript
- **Core Java:** OOP, Collections Framework, Exception Handling, Multithreading, Data Structures & Algorithms
- **Java & Backend Technologies:** Spring Boot, JSP, Servlets, JDBC, REST APIs, Maven
- **Databases:** MySQL, Firebase, Supabase
- **Web Technologies:** HTML, CSS, JavaScript, React.js, Next.js, Bootstrap
- **Tools & IDEs:** IntelliJ IDEA, Eclipse IDE, VS Code, Git, GitHub, Postman
- **Cloud:** AWS EC2, Amazon S3, AWS IAM (Basic)
- **Computer Science Fundamentals:** DBMS, Data Structures & Algorithms (DSA)

EXPERIENCE

Software Developer Intern | Landmark Techedge Pvt. Ltd.
December 2025 – June 2026

- Contributed to web and mobile application development using Flutter and React.
- Built backend APIs using Python and integrated REST APIs into application workflows.
- Managed application data using Firebase and Supabase databases.
- Used Git for version control while collaborating with the development team.
- Participated in debugging, testing, and enhancing application features.

PROJECTS

Java Education Website | *Next.js, React.js, Spring Boot, REST APIs, MySQL*

- Built a full-stack educational platform for Java programming concepts and interview preparation.
- Developed responsive frontend interfaces using Next.js and React.js and backend REST APIs using Spring Boot.
- Integrated MySQL for content and user data management; deployed the frontend via Vercel.

Live: v0-java-education-website.vercel.app

Algo Trading System | *Python, Pandas, NumPy, REST APIs, MySQL*

- Developed an algorithmic trading system to automate buy/sell decisions using predefined strategies.
- Implemented market-data analysis using technical indicators and integrated APIs to fetch and process trading data.

Live: https://trading.landmarksol.com/

VPN Client Simulator | *Java, Swing*

- Built a Java Swing VPN client simulator with server selection and connection monitoring.
- Implemented data-usage tracking and a dashboard; applied object-oriented programming principles to structure the application.

EDUCATION

Master of Computer Applications (MCA) | P.E.S. Modern College of Engineering, Pune | 2024–2026 | 55%
Bachelor of Computer Applications (BCA) | Rajmata Jijau Shikshan Prasarak Mandal ACS College | 2018–2021 | 70%

CERTIFICATIONS

- Spring Boot Java Programming — Infosys
- Full Stack Java Developer — Udemy
- Python Programming Language — ATOS Syntel
